Program

08.30 Registration of meeting participants

09.00 Introduction and purpose  
**A. Di Leo**

09.15 Biological function of estrogen receptor beta  
**J.A. Gustafsson**

09.45 Estrogen beta signaling in cancer  
**M. Warner**

10.15 Gut-Liver axis in colon cancer: role of nuclear receptor FXR and the enterokine FGF 19  
**A. Moschetta**

10.45 Discussion

11.15 Coffee break

11.45 Short Communication: Estrogen receptor beta agonist, LY3201, ameliorates high fat diet induced colonic neuropathy and myopathy  
**F. D’Errico**

12.00 Estrogen receptor beta and intestinal sporadic polyps/genetic polyposis  
**M. Barone**

12.20 Estrogen receptor beta and inflammatory colo-rectal cancer  
**M. Principi**

12.40 Discussion

13.00 Conclusive remarks and take home message  
**A. Di Leo**
Workshop president
Prof. A. Di Leo

Scientific committee
Prof. E. Ierardi
Dr. F. D’Errico
Dr. A. Iannone

Faculty
Barone M.
Researcher Professor - Section of Gastroenterology, Department of Emergency and Organ Transplantation, University of Bari

Di Leo A.
Full Professor - Section of Gastroenterology, Department of Emergency and Organ Transplantation, University of Bari

D’Errico F.
Training Assistant - Section of Gastroenterology, Department of Emergency and Organ Transplantation, University of Bari

Gustafsson J.A.
Chief - Center for Nuclear Receptors and Cell Signaling Department of Biology and Biochemistry - University of Houston

Iannone A.
Research Fellow - Section of Gastroenterology, Department of Emergency and Organ Transplantation, University of Bari

Ierardi E.
Senior Scientist – Section of Gastroenterology, Department of Emergency and Organ Transplantation, University of Bari

Moschetta A.
Associate Professor of Internal Medicine - University of Bari

Principi M.
Researcher Professor - Section of Gastroenterology, Department of Emergency and Organ Transplantation, University of Bari

Warner M.
Professor Department of Biology and Biochemistry University of Houston
Segreteria Organizzativa
